Community Information Displayed with Large Lettering		6	8	11		
Community Information Telephone Number			7			
	n = 400	--	--	n = 39	n = 29	n =255

1. This table summarizes outreach efforts that were based on the AARP survey categories. Open-ended questions from the phone and online surveys are listed separately.
2. Community needs and gaps are sorted from most popular to least popular as shown in the AARP survey results (left column), and color-coded from red (high-ranking) to green (low-ranking).
3. Items in the other columns are also numbered and color-coded according to the order they were ranked in that survey. (See example below.)
4. There are two numbers at most ranks because "Community Needs Gaps" and "Top Community Features" were ranked separately in the AARP Survey.
5. This survey did not differentiate between features and gaps, so the items are numbered sequentially rather than by category.

Example: "Home Repair Services for Low-Income and Older Adults" is #6 on the AARP survey, but was #13 on the Meals on Wheels Survey.
